team

With over 200 collaborators, and over 110,000 children screened, Help Me Grow- Southeast Michigan is one of the most successful Screening Initiatives in the country

Help Me Grow is a collaborative system with a critical mission: to identify children at risk for delays and help families find the right services for their child. Across the country, Help Me Grow builds cross-system collaboration, physician and community outreach, centralized call centers, and an extensive data system that identifies gaps in its services. Oakland Schools is a regional service agency that offers support services to school personnel that are best delivered regionally and provide cost, size and quality advantages to those they serve. Learn more about their successful initiative including strategies for collaboration, data collection, parent engagement and more.... Question and Answer session included.

Funded by the Illinois Children's Healthcare Foundation
